Health Requirements and Required Training

Use Non-Grady Employed New Hire Health Forms for the most up-to-date health requirements and forms. Health requirements are applied consistently to protect employees and patients; approved employee clearance exemptions are listed in Section 1.

Tuberculosis (TB) screening — updated May 19, 2026

- **TB IGRA blood screening:** Required within **90 days before the start date**. For consecutive Grady rotations, repeat IGRA is not required at the rotation change; results are valid for **one year**.
- **Chest x-ray:** Not a substitute for IGRA. Follow the chest x-ray parameters in the health requirements document and ACEMAPP; when submitting a chest x-ray, also submit the positive T-Spot or TB QuantiFERON result.
- **PPD tests:** Not accepted and must not be approved by the school. Submission may result in rotation denial.
- **TB Symptom Screening form - Grady:** Required annually; expires **12 months** after the completion date on the form.

Hepatitis B — added June 5, 2026

Grady requires a **3-dose Hepatitis B vaccine series and Hepatitis B titer** to satisfy the requirement. To begin a rotation:

- Students/clinical faculty must have completed at least doses **1 and 2**.
- If dose 2 was given **more than 30 days ago**, dose 3 is required before starting.
- If dose 3 was given **more than 120 days ago**, a titer is required.
- If dose 3 was given **within the past 120 days**, the rotation may begin; submit the titer after the required immunity-development period.

Vaccine exemptions and employee records

Use only Grady's Mandatory Vaccine Exemption Request Form_ Effective 061526. No other form is accepted.

Grady staff needing a copy of immunization records: Visit www.PureOHS.com and use the login credentials provided in your Grady News email alert (updated July 6, 2026). Employee ACEMAPP clearance is a separate application; see Section 1 for steps and the limited exemptions.

Required ACEMAPP training

- Students must complete **12 online orientation modules** and **2 attestations: Grady Values and Grady Kindness Revolution**.
- **Effective June 15, 2026:** Complete the **Grady Student Nurse Program Policy SCORM annually** to advance through rotation approval. The policy must be read, acknowledged and followed during rotations. See Grady Student Nurse Program Policy (notice updated June 5, 2026).
